5. Which is a mindfulness technique?

- **Correct Answer: (d) Deep breathing**
- **Page/Slide Number:** Page 18 (Lecture 2, Slide 18)
- **Slide Heading:** Relaxation and Mindfulness Exercises to Calm Nerves
- **Grounding:** The lecture specifically lists **deep breathing/box breathing** as a relaxation and mindfulness exercise. Box breathing involves inhaling, holding, exhaling and holding for four seconds each.

6. Exam anxiety can affect:

- **Correct Answer: (c) Both mental and physical health**
- **Page/Slide Number:** Page 5–7 (Lecture 2, Slides 5–7)
- **Slide Heading:** What is Exam Anxiety? / Symptoms of Exam Anxiety
- **Grounding:** The lecture defines exam anxiety as a combination of **physical, emotional and mental stress**. It lists physical symptoms such as sweating, shaking, nausea and rapid heartbeat, along with cognitive and emotional symptoms such as difficulty concentrating, memory blanks, fear and negative thoughts.

7. A study schedule helps in:

- **Correct Answer: (c) Managing time effectively**
- **Page/Slide Number:** Page 12 (Lecture 2, Slide 12)
- **Slide Heading:** Developing a Study Schedule
- **Grounding:** The lecture recommends breaking the syllabus into small portions, creating a study calendar, allocating specific times for subjects, balancing study and breaks, tracking progress and dividing study time according to difficulty or upcoming tests. These strategies support effective **time management**.

8. Positive self-talk helps to:

- **Correct Answer: (a) Build confidence**
- **Page/Slide Number:** Page 3 (Lecture 2, Slide 3)
- **Slide Heading:** Managing Exam Anxiety – Positive Mental Habits
- **Grounding:** The lecture includes positive self-talk under positive mental habits used to manage exam anxiety. The lecture also explains that effective preparation and practice tests can build confidence, while negative self-talk is identified as an internal trigger of exam anxiety.

9. How do creative arts and therapies support emotional well-being?

- **Correct Answer: (a) By allowing non-verbal communication and reducing stress**
- **Page/Slide Number:** Page 5 and Page 19–20 (Lecture 1)
- **Slide Heading:** Creative Arts and Mental Health / Incorporating Creative Arts into Daily Routines
- **Grounding:** The lecture explains that creative arts provide ways to express emotions and support emotional well-being. It also describes art and music activities as self-care practices and states that creative activities can promote relaxation and mindfulness.

10. What strategies help in managing exam anxiety effectively?

- **Correct Answer: (a) Stress related to exams managed through time planning**
- **Page/Slide Number:** Page 10–15 (Lecture 2, Slides 10–15)
- **Slide Heading:** Effective Preparation and Time Management Techniques
- **Grounding:** The lecture recommends spaced repetition, active learning, practice tests, avoiding cramming, starting early and seeking help. It also recommends developing a study schedule, using the Pomodoro technique, setting SMART study goals and prioritizing tasks. These preparation and time-management strategies help reduce exam anxiety.

SUMMARY:

1. c) Emotional clarity
