1. What is the key difference between intrinsic and extrinsic motivation?

- **Correct Answer: (b) Intrinsic motivation arises from internal satisfaction, while extrinsic comes from external rewards**
- **Page/Slide Number:** Page 19–20 (Lecture 1, Slides 19–20)
- **Slide Heading: Understanding Intrinsic and Extrinsic Motivation**
- **Grounding:** The lecture explains that intrinsic motivation comes from within, based on personal interest, curiosity and fulfilment, whereas extrinsic motivation is driven by external rewards or consequences.

2. During a mental health emergency, what should a professional focus on first?

- **Correct Answer: (c) Ensuring safety and stabilizing the individual**
- **Page/Slide Number:** Page 59 / Lecture 4, Slide 9; and Page 5 / Crisis Management section
- **Slide Heading: PFA Core Principles / Crisis Management in Mental Health**
- **Grounding:** The notes state that safety should be prioritized in a crisis, including assessing immediate needs and reducing exposure to additional harm. Crisis management also focuses on assessing, intervening and stabilizing individuals to reduce harm.

3. How does positive reinforcement influence motivation?

- **Correct Answer: (a) It increases the likelihood of repeating desired behaviours by rewarding them**
- **Page/Slide Number:** Page 32–33 (Lecture 1, Slides 32–33)
- **Slide Heading: Utilizing Positive Reinforcement to Boost Motivation**
- **Grounding:** The lecture defines positive reinforcement as adding a reward or positive stimulus after a desired behaviour to increase the chances of that behaviour happening again. The mechanism is Reward the effort → Repeat the behaviour → Build the habit.

4. Why is aligning goals with personal values important for motivation?

- **Correct Answer: (c) It strengthens commitment and engagement**
- **Page/Slide Number:** Page 22–23 (Lecture 1, Slides 22–23)
- **Slide Heading: Identifying Personal Values and Aligning Goals**
- **Grounding:** The lecture explains that when academic or personal goals align with core values, people experience greater intrinsic motivation, stronger resilience, meaningful engagement and satisfaction, as well as increased persistence and fulfilment.

5. Which skill is essential in Psychological First Aid?

- **Correct Answer: (b) Active listening and empathic presence**
- **Page/Slide Number:** Page 68 (Lecture 2, Slide 18)
- **Slide Heading: Active Listening in Psychological First Aid (PFA)**
- **Grounding:** The lecture states that active listening involves fully concentrating on the speaker, understanding their message and responding in an engaged and empathetic way. It helps people feel heard, validated and safe.

6. Which of the following is a warning sign of suicidal ideation in students?

- **Correct Answer: (b) Talking about feeling hopeless or being a burden**
- **Page/Slide Number:** Page 83 / Lecture 3, Slide 4
- **Slide Heading: Suicidal Ideation**
- **Grounding:** The lecture identifies expressing hopelessness, desire to die, and talking about being trapped or feeling like a burden as warning signs of suicidal ideation.

7. What is a key strategy for approaching someone who may be thinking about suicide?

- **Correct Answer: (d) Speak openly, with compassion and without judgment**
- **Page/Slide Number:** Page 90 (Lecture 3, Slide 11)
- **Slide Heading: Approaching and Talking with Someone About Suicide**
- **Grounding:** The lecture recommends using direct, empathetic language, asking openly about suicide and listening without judgment. It specifically emphasizes genuine concern and creating space for the person to talk.

8. What defines resilience in the context of mental health?

- **Correct Answer: (b) The ability to adapt and recover from adversity**
- **Page/Slide Number:** Page 113 (Lecture 4, Slide 6)
- **Slide Heading: Understanding Resilience and Its Role in Mental Health**
- **Grounding:** The lecture defines resilience as the ability to adapt well in the face of adversity, trauma, threats or significant stress and explains that resilient individuals can recover and even grow through adversity.

9. Which strategy helps cultivate resilience during a crisis?

- **Correct Answer: (c) Practicing optimism and emotional awareness**
- **Page/Slide Number:** Page 128 & 130 (Lecture 4, Slides 21 & 23)
- **Slide Heading: Cultivating Optimism and Emotional Strength During Challenging Times**
- **Grounding:** The lecture recommends maintaining a hopeful outlook and developing emotional awareness. It explains that optimism supports persistence, while understanding and safely expressing emotions helps prevent emotional suppression and supports resilience.

10. What is an effective way to prevent burnout?

- **Correct Answer: (a) Setting boundaries and prioritizing self-care**
- **Page/Slide Number:** Page 24–25 (Lecture 4, Slides 24–25)
- **Slide Heading: Techniques to Prevent and Recover from Burnout**
- **Grounding:** The lecture recommends prioritizing rest, setting boundaries and practicing mindfulness. It specifically suggests setting work hours, avoiding overwork, scheduling breaks and saying no to unnecessary commitments.

Summary

1. B – Intrinsic motivation arises from internal satisfaction, extrinsic from external rewards.
2. C – Ensuring safety and stabilizing the individual.
3. A – Increases the likelihood of repeating desired behaviours by rewarding them.
4. C – Strengthens commitment and engagement.
5. B – Active listening and empathic presence.
6. B – Talking about feeling hopeless or being a burden.
7. D – Speak openly, with compassion and without judgment.
8. B – Ability to adapt and recover from adversity.
9. C – Practicing optimism and emotional awareness.
10. A – Setting boundaries and prioritizing self-care.

Final Answers: 1-B, 2-C, 3-A, 4-C, 5-B, 6-B, 7-D, 8-B, 9-C, 10-A.
